

Cagatay Sagir

Ashburn, Virginia

Computer Science junior based at George Mason University with strong foundations in algorithms, object-oriented programming, and software design. Experienced in Python, Java, and web development through academic projects and client deliverables. Seeking an engineering internship to apply computer science knowledge, gain real-world development experience, and contribute to impactful projects in a collaborative team environment.

WORK EXPERIENCE

Freelance Web Developer Cagataysagir.netlify.app

06/2022 - Present

Achievements/Tasks

- Built and deployed production websites for clients in ecommerce, beauty services, and productivity tools.
- **Bsguzellik.com** – Built a fully custom beauty salon website from scratch for a client in Turkey using HTML, CSS, and JavaScript, hosted on Cloudflare Pages. Features Turkish-language content, service listings, animated UI effects, and direct WhatsApp/Instagram contact integrations to drive client bookings and engagement.
- **Jobapptracker5.netlify.app** – Built a full-stack job application tracker using vanilla HTML/CSS/JS on the frontend and Supabase (PostgreSQL + Auth) as the backend. Layered JS structure separating UI logic, a storage abstraction layer, and a Supabase API layer, with row-level security enforcing per-user data isolation.
- **ShopUSAToGhana.com** – Designed and deployed a cross-border e-commerce site for a client entering the Ghanaian market, configuring product listings, payment processing, and international shipping workflows

Commercial & Retail Sales Associate Fortessa Tableware Solutions

06/2022 - 10/2024

Achievements/Tasks

- Optimized retail operations, improving inventory management efficiency and maintained an organized store environment to support streamlined customer interactions.
- Boosted commercial sales by strategically engaging high-profile clients, including Marriott, Hilton, Disney, and Raventek, achieving a 15% increase in client retention and satisfaction through tailored support and relationship-building.
- Facilitated large-scale commercial orders by establishing and nurturing strong connections with new and existing clients, resulting in 20% increase in direct repeat orders and expanding account sales volume.
- Partnered with the Store Manager to implement sales events and targeted marketing strategies, including participation in One Loudoun Plaza community events to engage customers and enhance brand visibility, contributing to an uptick in foot traffic and driving significant revenue gains.
- Enhanced in-store logistics efficiency by coordinating seamless pickups and shipments, improving customer satisfaction metrics and ensuring prompt delivery.
